

# School Report

## Assessments of Reading, Writing and Mathematics

### Primary Division (Grades 1–3) and Junior Division (Grades 4–6), 2006–2007

**School: St Luigi Sep S (820610)**

**Board: Toronto Catholic District School Board (67059)**

I am pleased to provide you with this report on the Assessments of Reading, Writing and Mathematics, Primary Division (Grades 1–3) and Junior Division (Grades 4–6) for 2006–2007. Included are student results for the current year, those from previous years and, to put these results in context, information about the student populations.

Throughout the province, EQAO data inform professional practice and act as a catalyst for improving student achievement. This report has been designed to assist you in your conversations about improving student achievement and planning interventions for students.

We believe that every student deserves the best outcome from public education. Working with Ontario educators, EQAO continues to design assessments that are directly linked to *The Ontario Curriculum*. These assessments provide a means of measuring student learning at a few critical transition points and are a vehicle for assuring people that, at those points, all Ontario students are being assessed by the same yardstick.

However, large-scale assessment results are just one piece of the picture of how students are doing in our schools. These assessment results should be considered in conjunction with school-based information. As well, regular assessments conducted by a student’s teacher should be the primary method of supporting students in their schooling.

I hope this report will help parents, educators and all who support a strong public education system to work together so that all students achieve their fullest potential.

Sincerely,

Marguerite Jackson  
Chief Executive Officer

## TIPS

Each school or board is unique. To appreciate the distinctive character of a school or board, look at the contextual information to understand the features and characteristics of the community it serves.

Every assessment captures the performance of students at one point in time each year. Consider the results along with other information about students' achievement in reading, writing and mathematics.

Exercise caution when interpreting results for small schools or boards. Results may vary considerably from year to year, and differences may look exaggerated. For example, in a school of 20 students, a difference of 10% represents only two students.

Trends may be difficult to identify or to interpret. This is especially true in small schools or boards, or in schools where there is a high turnover in the student population.

EQAO values students' privacy. Results are not reported publicly for schools where fewer than 15 students participated, because it might be possible to identify individual students.

## ABOUT THIS SCHOOL OR BOARD REPORT

This report shows how well students have met curriculum expectations to the end of the Primary Division and the end of the Junior Division. Students complete a set of test booklets that allow them to show what they have learned in reading, writing and mathematics. The assessments are based on *The Ontario Curriculum*.

### This report includes

- ◆ results for this year
- ◆ a comparison of results over the past five years to aid in monitoring improvement
- ◆ information about the characteristics of the students who participated
- ◆ summary graphs showing the percentage of students achieving the provincial standard in reading, writing and mathematics
- ◆ detailed tables and graphs showing results for all levels of achievement, results for gender and participation information
- ◆ student questionnaire results
- ◆ an explanation of all terms used in this report.

### How to use this report

- ◆ Examine the contextual information to understand the similarities and differences between the school, the board and the province; the board and the province. Consider the challenges that any differences might present.
- ◆ Examine the results for reading, writing and mathematics.
  - Are these results consistent with what you would expect?
  - How do the school results compare to the board and the province; the board results compare to the province?
  - How do these results compare over time?
  - What influence might students' attitudes have on student performance?
- ◆ Speak to the school principal or the school council chair about the goals for school improvement related to reading, writing and mathematics.

The Education Quality and Accountability Office is an independent agency that gathers information about student achievement through province-wide assessments. Each year, all Grade 3 and Grade 6 students across Ontario take part in these assessments of reading, writing and mathematics. Individual results are reported to students and to parents and guardians. School, board and provincial results are released publicly.

\* Because percentages in tables are rounded, percentages may not add to 100.

\*\* See the Explanation of Terms.

† These percentages are based on the actual number of students and cannot be calculated simply by adding the rounded percentages of students at Levels 3 and 4.

†† Results by gender include only students for whom gender data were available.

## Assessments of Reading, Writing and Mathematics, Primary and Junior Divisions, 2006–2007

**Contextual Information over Time: Grade 3\***

This information provides a context for interpreting the school's results over the past five years.

\* Contextual data pertaining to gender, student status, school background, place of birth and language learned at home are provided by schools and/or boards through the Student Data Collection process.

† Some French Immersion students did not write all components of the assessment in Grade 3; the numbers shown are based on the number of students who were expected to write each component.

\*\* See the Explanation of Terms.

<sup>+</sup> The percentage of students in this year may not be comparable with those of later years as the definition for the ESL/ELD group changed in 2004 from "students enrolled in an ESL/ELD program" to "students designated as ESL/ELD learners".

<sup>++</sup> The percentage of students designated as having special needs in this year may not be comparable with those of later years because the Individual Education Plan requirement came into effect for the 2004 assessments.

<sup>††</sup> The question related to student mobility changed in 2005–2006.

n/a Information not available.

\* Contextual data pertaining to gender, student status, school background, place of birth and language learned at home are provided by schools and/or boards through the Student Data Collection process.

\*\* See the Explanation of Terms.

<sup>+</sup> The percentage of students in this year may not be comparable with those of later years as the definition for the ESL/ELD group changed in 2004 from "students enrolled in an ESL/ELD program" to "students designated as ESL/ELD learners".

<sup>++</sup> The percentage of students designated as having special needs in this year may not be comparable with those of later years because the Individual Education Plan requirement came into effect for the 2004 assessments.

<sup>††</sup> The question related to student mobility changed in 2005–2006.

n/a Information not available.

## EXPLANATION OF TERMS

|                                    |  |
|------------------------------------|--|
| <b>All Students</b>                | Results are reported for all students in the grade.  |
| <b>Participating Students</b>      | Results are reported only for those students who took part in the assessment (excludes "no data" and "exempt" categories).   |
| <b>Provincial Standard</b>         | The Ministry of Education has set Level 3 as the provincial standard.  |
| <b>Level 4</b>                     | The student has demonstrated the required knowledge and skills. Achievement surpasses the provincial standard.   |
| <b>Level 3</b>                     | The student has demonstrated most of the required knowledge and skills. Achievement is at the provincial standard.   |
| <b>Level 2</b>                     | The student has demonstrated some of the required knowledge and skills. Achievement approaches the provincial standard.  |
| <b>Level 1</b>                     | The student has demonstrated some of the required knowledge and skills in limited ways. Achievement falls much below the provincial standard.  |
| <b>NE1</b>                         | "Not enough evidence for Level 1." The student has not demonstrated enough evidence of knowledge and understanding to be assigned Level 1.   |
| <b>NEIS</b>                        | "Not Enough Information to Score." This category was eliminated in 2004–2005. Students are now assigned a level based on the work they submitted, with unanswered questions treated as incorrect.  |
| <b>No Data</b>                     | EQAO did not receive completed assessment booklets for this student.   |
| <b>Exempt</b>                      | The student was formally exempted in one or more components of the assessment.   |
| <b>ESL/ELD</b>                     | English as a second language (ESL)/English literacy development (ELD) learners are identified by the school.   |
| <b>Students with Special Needs</b> | These are students who have been formally identified by an Identification, Placement and Review Committee (IPRC), as well as students who have an Individual Education Plan (IEP). Students identified as gifted are not included.   |
| <b>N/R</b>                         | "Not reported" indicates that the number of students participating (fewer than 15 in a group) or responding to the Student Questionnaire (fewer than six in a group) is so small that identification of individual student results might be possible; therefore, results are not reported. |
| <b>N/D</b>                         | "No data available" is used to indicate that there were no students in the grade or subject for the group or year specified.   |
| <b>W</b>                           | Results for some or all students are being withheld by EQAO. For further information, please contact the school principal.   |
