

Board: Toronto Catholic District School Board (067059)

School: Loretto Abbey Catholic SS (728055)

Demographics

1 school(s) with Grade 9 classes

8 class(es) with Grade 9 students in Academic Mathematics

1 class(es) with Grade 9 students in Applied Mathematics

228 Grade 9 students in Academic Mathematics

24 Grade 9 students in Applied Mathematics

0% in English as a second language (ESL) program

7% receiving Special Education Support

0% boys 100% girls 0% gender not specified

13% of the students said they speak only or mostly a language other than English at home

14% of the students said they speak English as often as another language at home

Accommodations/Special Provisions

1% exempted

6% wrote with accommodations and/or special provisions

Semester/Full Year

0% were in a first-semester program (wrote in Jan.)

0% were in a second-semester program (wrote in June)

100% were in a full-year program (wrote in June)

Explanation of Terms

Receiving Special Education Support

designates students whose Student Information Form indicated that they had been formally identified by an Identification, Placement and Review Committee, as well as students who, though not formally identified, received special education support as noted on their Individual Education Plan.

Exempt

designates students who were formally exempted from participation in one or more components of the assessment.

No data

is used when EQAO did not receive completed assessment booklets from non-exempt students.

NEIS:

(Not Enough Information to Score) is used when large sections of work are missing, due to student absence or for other reasons, such that a level of achievement cannot be assigned for a given category, strand or overall score.

Below L1

Insufficient achievement of curriculum expectations.

Levels 1-4

are aligned with the four-level scale used on the Provincial Report Card, which sets Level 3 as the provincial standard.

Explanation of Methods

Method 1

Data for all students in the grade are reported. Method 1 expresses the number of students in each reporting category as a percentage of all students in the grade (i.e., students at the four levels of achievement and those in the *exempt*, *no data*, *NEIS* and *Below L1* categories described above).

Method 2

An alternative way of presenting the data. Method 2 expresses the distribution of results as a percentage of those students who took part in the assessment (i.e., students at the four levels of achievement and those in the *NEIS* and *Below L1* categories described above). Students in the *exempt* and *no data* categories are excluded.

Overall Scores

The overall level of achievement is calculated using students' scores in the categories and strands across multiple-choice, short answer and task components. Students may receive overall scores, category scores and/or strand scores if sufficient items were completed to be able to report reliably.

Overall scores are adjusted for within-year and year-to-year differences between assessments.
