* Numbers and percentages are based on the total number of students who completed a questionnaire and for whom gender data were available.

† Percentages may not add up to 100, due to rounding.

Note: N/R “Not reported” indicates that the number of students responding to the questionnaire is so small (fewer than six in a group) that identification of individual results might be possible; therefore, results are not reported.

N/D “No data available” is used to indicate that there were no students for the group specified.
