Explanation of Terms and Categories

To meet the requirements of the OSSD, students must successfully complete both the reading component and the writing component of the OSSLT or complete the Ontario Secondary School Literacy Course (OSSLC).

First-Time Eligible students typically entered Grade 9 during the 2002-2003 school year. These students (and any others who were placed in this cohort) were required to write the OSSLT for the first time in October 2003. **Total First-Time Eligible** includes all students in the first-time eligible cohort who are working toward an OSSD. This category includes all participating students as well as those deferred or absent.

Previously Eligible students entered Grade 9 during the 2000-2001 (cohort one) or the 2001-2002 (cohort two) school year. Cohort one students (and any others who were placed in this cohort) were required to write the OSSLT for the first time in February 2002. Cohort two students (and any others who were placed in this cohort) were required to write the OSSLT for the first time in October 2002. Students who were not successful in February 2002 and/or in October 2002, or were absent or deferred became eligible again to write the OSSLT in October 2003. **Total Previously Eligible** includes all students in the previously eligible cohort who are working toward an OSSD. This category includes all participating students as well as those deferred, absent or fulfilling their OSSD requirement through the OSSLC.

Schools are responsible for indicating which component(s) the student still requires in order to complete the OSSLT successfully. Previously eligible students are reported in one of the three following subcategories:

- Required to Pass Reading and Writing
- Required to Pass Reading Only
- Required to Pass Writing Only

First-time eligible and previously eligible students are reported separately to allow schools to compare the performance of first-time eligible students from year to year. These comparisons will assist schools in assessing the effectiveness of their literacy programs.

Successfully Completed the OSSLT	Students participated in the OSSLT and passed both the reading component and the writing component.
Wrote the OSSLT but Were Not Successful	Students participated fully in the OSSLT but did not pass the reading component or the writing component, or were unsuccessful on both components.
Number Fully Participating in the OSSLT	Students are designated as having fully participated if they were present on both days of the administration. A student is considered to be present for a day's testing if there was work completed in at least one of the two booklets administered on a given day.
Absent One or Both Days	Students are considered absent from the test if there was no work completed in the two booklets administered to them on one or both days of the administration.

Deferred

Students' participation in the OSSLT can be deferred under several circumstances, as outlined in EQAO's *Guide for Accommodations, Special Provisions, Deferrals and Exemptions*. A student is categorized as deferred only if the Student Information Form (SIF) indicates a deferral and there is no work in any of the student's test booklets. If a student completed any portion of the OSSLT, he or she is not categorized as deferred.

Fulfilling the Requirement through OSSLC

According to Ministry of Education Guidelines, students who have been eligible to write the OSSLT at least twice and who have been unsuccessful at least once are eligible to take the Ontario Secondary School Literacy (OSSLC) course. Note that if a student completed any portion of the OSSLT, he or she is not categorized as fulfilling the requirement through the OSSLC.

Exempted

Students can be exempted from the OSSLT only if they are not working toward an OSSD. A student is categorized as exempted only if his or her SIF indicates that the student is exempted and there is no work in any of his or her test booklets. Note that if a student completed any portion of the OSSLT, he or she is not categorized as exempted.

ESL/ELD

English as a Second Language (ESL)/English Literacy Development (ELD) are students identified by the school as ESL/ELD learners.

Students with Special Needs

Students with special needs are students with an Individual Education Plan (IEP), who may or may not have been identified as "exceptional pupils" by an Identification, Placement and Review Committee (IPRC), and are receiving special education programs and services (Ministry of Education Policy/Program Memorandum No. 127).

Students Receiving Accommodations

Students receiving accommodations are students with an IEP who may or may not have been identified as "exceptional pupils" by an IPRC. Detailed information about accommodations is available in the Ministry of Education Policy/Program Memorandum No. 127 and in the *EQAO Guide for Accommodations, Special Provisions, Deferrals and Exemptions*.

Method 1

This method provides a percentage breakdown of all students in the cohort who are working toward an OSSD. The only students excluded from the percentages in Method 1 are exempted students who are not working toward an OSSD, and were, therefore, exempted.

Method 2

This method provides a percentage breakdown of those students who fully participated in the OSSLT. Students are considered to have fully participated if they were present on both days of the administration.

Protection of Personal Information

To protect against the disclosure of personal information associated with individual student results, a series of suppression rules are implemented for the public release of OSSLT results. Statistics have been suppressed where the number of respondents is so low that individual results could be determined from the aggregate value.

Percentages are rounded to the nearest even integer. Percentages of less than 0.5% are shown as <1%.
