

Stefan Ntansah: Student Witness to Faith

I am a recent grade 11 student from Francis Liberman Catholic High School.

If I had to create a Catholic Resume which highlighted the ways in which I am a witness to the Catholic faith, I think my resume would entail Baptism, First Eucharist and Confirmation all taking place with the support of Catholic elementary schools and the Catholic Church.

What kind of difference do you hope to make in living a life based on Jesus' teachings?

I hope to make a huge and lasting difference living a life based on Jesus' teachings. Traveling to Kenya this past summer has given me a hands on outlook on following Jesus' teachings by 'helping my neighbour' regardless of how far away they may be; in my community here in Toronto or over seas.

What advice do you have for a young Catholic finding ways to express their faith?

The advice I have for young Catholics finding ways to express their faith is to make daily decisions that reflect the life of Christ. Through simple actions such as volunteering, making donations where able and lending a helping hand to those in need. I would also advise young people to join their church youth group to further bear witness to faith and learn about the teachings of God.
