Catholic Charities of the Month

Mary Centre

Mary Centre helps individuals and families identify and develop skills of an adult with a developmental challenge, who is living at home, to gain self-confidence and independence. Its respite care program provides a place of rest for caregivers and families. Mary Centre delivers integrated support services and creates new opportunities for the benefit of the developmentally challenged, their families and the community in which we live. Although a small agency, it serves as a large centre of support, information, caring and sharing.

Our Place Community of Hope Centre

Our Place Community of Hope provides a ministry of hospitality and presence to people experiencing mental health issues, through a community which seeks to include all people by affirming and empowering them toward personal and communal responsibility. People take part in selected voluntary activities rather than “programs”, helping them to build
social skills and gain leadership experience. Our Place is a response to the needs of people with mental health problems especially now when there are still insufficient community services available to support the needs of people living with mental illness.
