Bishop Marrocco/Thomas
Merton (Secondary)

EASTER MESSAGE FROM Trustee Teresa Lubinski

As Catholics, Easter is our most holy, and most emotional, religious observance. We witness Jesus' passion, death and eventual resurrection, and we are called to renew our commitment to our God and our faith.

This year, Easter's message is more applicable than ever, as we navigate this difficult time of uncertainty in our world. It is in these times when we are challenged mentally, physically, and faithfully; that we must choose to see the light overcoming the darkness.

As we reflect on this holiest of seasons, we are reminded of the everlasting gift of love that God has given and continues to give us, along with the many blessings we have in life.

In our daily life we are now blessed with the opportunity to spend more time together as families, and slow our pace to appreciate the small things. As Canadians, we are also blessed by the state of our health care system and the dedication of our healthcare professionals and other frontline workers, who continue to work hard to ensure the rest of us can stay home and stay safe. We are also blessed by our teachers who continue to dedicate their skills towards a new way of teaching so that our students can continue to thrive in these extraordinary times.

This Easter, we sadly cannot celebrate at Mass, nor can we get together in big groups with our friends and family. However, we can stay connected to one another spiritually and through modern technology which can help bring us closer than ever. We will continue to pray for our pastors as we look forward to the time when we can all celebrate together again.

Now more than ever, we all need true light, and to believe that the light of Jesus' resurrection at Easter will shine. May the risen Lord remain in all of our hearts and give us the strength to carry on.

I wish everyone in our TCDSB family a blessed Easter! Please stay safe, stay home and remember to practice social distancing. As always, I am here to help, so please feel free to contact me.

Happy Easter,
