

Policy

The Toronto Catholic District School Board supports the establishment of quality Child Care and Family Support Programs in schools where space can be provided by the Board.

Contact Info

We are presently working with our community partners to increase the number of programs we offer young children. For further information about any of the enclosed programs or to start a program at your community school please contact David Letra or Everton Lewis in the Community Relations Department.

Services for
Young Children

Childcare

A licensed Childcare program is a great opportunity for your child to learn and develop. Whether you need care because you are working, attending school or simply because you would like a preschool experience for your child, licensed child care offers children opportunities for play, socialization, exploration and age-appropriate learning in a nurturing and safe environment.

Before and After School Programs

At a time when a growing number of children are spending the time between 3 and 6 p.m. unsupervised, the need for quality after-school programming is important. A quality before-school, after-school, or summer program can provide a secure place for kids and additional learning opportunities and experiences.

Ontario Early Years

Ontario Early Years Centres are places where parents and caregivers can get answers to questions, information about programs and services that are available for young children. It is also an opportunity to talk to early year's professionals, as well as other parents and caregivers in the community.

Student Nutrition Programs

Student Nutrition programs offer a healthy breakfast, snack and/or lunch to students before, during or after school each day. Programs focus on serving healthy, fresh foods that are safe and culturally appropriate to their community and participants and are offered in a non-stigmatizing environment.
