<b>URGENT CRITICAL LEARNING NEED.</b> Based on our School Data, it is our understanding that, if we incorporate more EQAO type multiple choice and open ended questions into daily math instruction, (e.g. key assessments, tests, quizzes), students will be afforded more opportunities to develop their mathematical thinking and application skills that in turn, will help them think critically to problem solve.																		
<b>SMART GOAL</b> Our Smart Goal will focus on the use of Reading for Meaning strategies, such as Visualization, Determining Important Ideas, Synthesizing, the use of consistent Math Language across the grades and dedicating specific time to Multiple Choice / Open Ended type questions, to move our focus group of 37 Level 2 students to Level 3 by June 2020. This will be documented through the use of common assessment tasks a minimum of 3-4 times in the school year.																		
<b>REQUIRED PROFESSIONAL LEARNING</b>
