

TCDSB Guidelines

The student community involvement activities must total a minimum of 40 hours and must be completed in order to be eligible for the OSSD.

- As of July 2011, a student can begin to fulfill this requirement in the summer prior to grade 9.
- The activities must **not** be part of a credit course.
- Student community involvement activity must be completed outside of scheduled class time.
- The activities **must** be **unpaid**.
- “Volunteer” is not necessarily “community service”.
- Volunteer work conducted in a commercial setting does not qualify as community service.
- Students cannot volunteer at a place of business by working for “free”.
- A single forty-hour activity or a series of shorter-term activities may be undertaken. However, students are encouraged to participate in the community involvement component over the course of their secondary school career.
- Students must submit updated records of their completed activities as they are done, or by the date requested at the school.

Completed Hours can be submitted in the Guidance Office. Please put completed forms in the black box on the wall.

Thank you

Volunteers!
