

Virtue of the Month

JUSTICE

Religion and Family Life

In Religion students will learn about Pentecost and the effects of the coming of the Holy Spirit upon Jesus' followers. In Family Life they will learn that everyone makes decisions and that they have to be made carefully and that other people can help us make good decisions.

Language

In Reading, students continue to use the A.P.E. model when responding to comprehension questions. They provide evidence in the text to support their responses. They make connections to the text and explain how these connections enrich their comprehension. They also make inferences about texts using stated and implied ideas from the texts as evidence.

In Writing, students will write a persuasive speech. They will select a topic and use a Persuasion Map to develop their paragraphs.

In Word Study, students continue to learn strategies to spell words through weekly spelling lessons. Students continue to complete a weekly home journal.

Math

Students will learn about multiplication. They will relate multiplication to repeated addition and skip counting.

Science

Grade 3s will learn about forces causing movement.
Grade 2s will learn about movement and ways in which simple machines help to move objects.

Let Justice flow like a
stream, and
righteousness like a
river that never goes
dry.
Amos 5:24

"True peace is the presence of
Justice."

~ Martin Luther King Jr.

Please continue to sign the student
planner each day.

Thank you for your continued
support!
