

December Newsletter

Dear Parents,

December marks the beginning of Advent. We have entered an exciting time of the year, where the children are preparing for Christmas, and the birth of Jesus. The virtue of the month for December is charity. We are getting ready by preparing for the Christmas concert, and various Christmas activities.

In Language Arts, the SK's have been reviewing letter sounds and putting sounds together. They are trying to write a story/sentence by blending sounds together. In December, we will be working on the letters, Gg, Oo, Uu, and Ll.

In the Grade one Math program we will be working on Linear Measurement, and Exploring 3-D and 2-D Shapes. The following topics will be our next focus:

- Measuring Using Different Units
- Measuring Length and Width
- Exploring 3-D Shapes
- Sorting 3-D Shapes
- Creating and Building 3-D Shapes
- Exploring and Sorting 2-D Shapes

Just a reminder that our Christmas concert is on December 16 at 7 p.m. at Michael Power St. Joseph High School. On the night of the concert, we are asking that your child wear a white top, with a dark bottom in blue or black. Also, please have your child bring in a labelled Santa's hat to school by December 8, that will be used for the concert.

Thank-you for your support,

Mrs. Pratterer (SK/Grade 1)
