

Classroom Update

Welcome to Mrs. Goslin's Grade 5/6

February 2016

Topics of Study

Mathematics: Geometry (5) Geometry (6)

Writing: Organization

Reading: Making Connections

Science:

Human Body (5)

Space(6)

Grade 6's Get Charged with Scientist in the School

The Grade 6 students had the opportunity to step into the physics lab and build a human battery! They explored the nature of electricity, its generation and use. Students experimented to see how static electricity makes objects move and spent time experimenting with circuits to learn how a house is wired. They also used their circuits to test conductors, insulators and switches. Once the circuits were packed up, students electromagnets, simple motors and used their own energy to power a generator.

Grade 5's Inspired to Embrace Energy Conservation after Scientist in the School

The Grade 5's spent a half day discovering where energy comes from, its different forms and how it can be transferred or trans-formed. Students identified energy stored in household objects, investigated how to launch a ping pong ball into space and discovered how the energy in their body can power wind-up toys. They also spent time exploring how changing your light bulbs and adding insulation can save energy.

FOR GOD SO LOVED
THE WORLD, HE GAVE
IT HIS ONLY SON.

~ JOHN 3:16 ~

- LET YOUR ACTIONS BE GUIDED BY THE IDEA THAT GOD SAYS WE SHOULD LOVE ONE ANOTHER AS HE HAS LOVED US.
- JESUS SAID WE SHOULD LOVE OUR ENEMY.
- THE BIBLE SAYS THAT LOVE IS ALWAYS PATIENT AND KIND.
- LIVE YOUR LIFE IN A WAY THAT MAKES OTHERS KNOW YOU ARE A FOLLOWER OF CHRIST.
