

Dear Parent(s),

April in the Kindergarten class is going to be awesome! We are excited to announce that the students will be taking part in Earth Day activities that will be organized by the Scientist in the School. The students will also be engaged in a variety of activities. In math, we will continue to explore the concept of addition and three dimensional shapes. We will also be investigating the season on spring by taking neighbourhood walks and taking pictures of our findings. In saying this, we will also be planting some vegetable seeds that will be transplanted in our garden. This month, the students will also be discussing the virtue of justice. Please take a peek at the pictures of the students as they participated in the various classroom activities!

Important Dates To Note

Friday, April 15th - P.A. Day

Wednesday, April 20th - Scientist in the School

Looking back...
