

Active Healthy Living Parent Survey

Comes home to you on December 23rd, 2016.

Due back at school on January 12th, 2017.

Active Healthy Living Parent Survey

Parents,

The cost for excursions have skyrocketed and we find ourselves in a difficult spot – we want to do things beyond the classroom, yet we have to keep costs in mind. Also, some “yearly” or “new” outings must be re-examined as to the feasibility of having them at all. We are asking for your input – in this particular survey, we are asking for you to complete and return this survey about **SKATING**, **SKIING**, and **TUBING** to the Office at your earliest convenience – January 13th at the latest. If we do not get a good response, unfortunately the noted excursions below will be cancelled; if we get a good response, fantastic and we will move on this – active living nourishes the mind and body and it’s good for you!

Survey Part 1: Skating

We are aiming to take students from Grade 1 to 8 **SKATING** on 2 occasions in the New Year.

Location: McGregor Community Centre (we have 2 rinks at our disposal)

The dates are:

Friday Jan. 27 @ 10:00AM to 12:00PM

Monday Feb. 27 @ 10:00AM to 12:00PM

The total cost per student is \$4 (includes bus, skating for 2-hours, both days)

Requirements: Skates and a helmet (Mandatory), winter coat, gloves

Question: Will your child participate in the **skating trips**? YES NO

Survey Part 2: Downhill Skiing

We are aiming to take students from Grade 5 to 8 **DOWNHILL SKIING** on 2 occasions in the New Year.

Location: Snow Valley Ski Resort

The dates are:

Tuesday January 31 @ 9:00AM-6:00PM (tentative)

Tuesday March 21 @ 9:00AM-6:00PM

The cost per student is \$70 in total for both days (Includes Skis, Helmet, poles, lesson, lift ticket, bus, all taxes)

Requirements: Winter jacket, gloves, snow pants

No previous experience is needed.

Question: Will your child participate in the **skiing trips**? YES NO

Part 3: Snow Tubing

We are aiming to take students from Grade 1 to 8 **SNOW TUBING** on 1 occasion in the New Year.

Location: Snow Valley Ski Resort

The date is:

Wednesday February 15 @ 9:00AM-6:00PM

The cost per student is \$25 in total (Includes helmet, unlimited runs for the day, bus)

Requirements: Winter jacket, gloves, snow pants

NOTE: STUDENTS MUST BE 41 INCHES (104 CM) IN HEIGHT TO ATTEND

No previous experience is needed.

Question: Will your child participate in the **SNOW TUBING** trip? YES NO

It is important that we hear from you as we need to plan well ahead of time. The prices we have been able to arrange with Snow Valley (skiing and tubing) and the City of Toronto (skating) allow for our students to participate in all 5 days of physical active and healthy living activities for \$99 in total – This means your child can go on 2 skiing trips, 2 skating trips, and 1 snow tubing trip for \$99 (all in and nothing more to pay). Although this is quite a bit of money, keep in mind that 1 ski trip alone (not including transportation) can cost up to \$90 when you consider rental of skis, helmet, poles and lift ticket!

Please return this survey back to your child’s teacher by January 12th ... we’re trying to step outside the box, but we need your input and support to do it.

Thank you,

J. Masciarelli
Principal
