

The Ontario Youth Apprenticeship Program (OYAP) promotes careers in the skilled professions. It meets the needs of students who are considering apprenticeship as a pathway to full-time, life-long employment immediately after graduating.

In Grade 11 and/or 12, you can explore a career opportunity at a co-operative education placement. You may begin your apprenticeship in any of the skilled professions by registering to a training agreement/contract in either grade. In addition, you can apply to a centrally-co-ordinated program in Grade 12 that will provide industry-recognized instruction and prepare you for employment in one of eight occupations: General Carpenter, Drywall and Acoustical Applicator, Cook, Automotive or Truck and Coach Technician, Information Technology Support Analyst (Hardware), Network Cabling Specialist, Child and Youth Worker, and early Childhood Educator. These intensive programs are usually 4-credits in nature and are offered in Semester II.

As a participant in an Ontario Youth Apprenticeship Program, you:

- earn credits towards your high school diploma
- register as an apprentice and you may be exempted from or credited for some of the post-secondary apprenticeship in-school training course(s)
- accumulate hundreds of hours of hands-on experience
- make connections with people that can help you today and tomorrow
- may "earn while you learn" to help off-set the cost of tools or future training.

It's your future..

**"make
YOUR
MOVE"**

Who Is Eligible?

- Students who are at least 16 years of age and have completed Grade 10 can register as apprentices.
- Students must complete a minimum of three in-school credits per year.
- *To receive an OSSD, students must still complete all compulsory credits.*

Apprenticeship Requirements

- Students must be placed with a qualified employer/sponsor.
- Students must fulfill all the requirements of an apprenticeship program including the in-school portion (unless they have earned the privilege of being exempted).

Monitoring

A Co-operative Education teacher will monitor to make sure that your educational requirements are being met. As well, a Training Consultant from the Ministry of Training, Colleges and Universities will monitor your progress to ensure that industry standards and training requirements are being met.

***OYAP gives you a great head start on becoming a skilled professional.
For more information, speak to a guidance counsellor, teacher advisor, or a
co-operative education teacher at a your school.***
