### Library

What will you learn?

How to protect your children and the family computers from internet threats.

Who will benefit?

Parents of school-age children who use Windows, Apple or Android devices.

How long is the workshop?

90 minutes, including questions.

How will you remember the details?

You will receive the 42-page Parent's Handbook containing detailed instructions for each topic.

How can you attend?

Please complete the form at the bottom and return it to Transfiguration CS. Childcare and light refreshments will be available.

### Key Topics

#### User Account Security:

Proper selection of account security is mandatory for you to maintain control of the family computers. This module will show you why and how to configure yours and your children's accounts.

#### Internet Content Control:

Learn how to utilize available, no-cost parental controls for managing each stage of your children's internet activities.

#### Social Networking:

Parents will learn/review security settings and safe behaviour for Facebook, Twitter and Skype.

#### File Sharing:

Discover the existing and emerging risks inherent to unrestricted sharing of copyrighted and inappropriate files.

#### Cyberbullying:

Protection measures, evidence gathering and appropriate responses by both children and parents for halting the harassment are discussed.
