## Grade 3 and Grade 6 Assessments of Reading, Writing and Mathematics, 2001-2002 School Results

**Board:** Toronto Catholic District School Board (067059)

**School:** St Albert (766038)

### Demographics (Grade 3)

- 1 School(s) with Grade 3 classes
- 3 Class(es) with Grade 3 students
- 43 Grade 3 students
- 0% In English as a Second Language Program (ESL)
- 0% Exempted in all three subjects
- 26% Receiving Special Education Support
- 58% Boys                      42% Girls                      0% Gender not specified
- 9% Of the students said they speak only or mostly in a language other than English at home
- 19% Of the students said they speak as often in English as in another language at home

### Demographics (Grade 6)

- 1 School(s) with Grade 6 classes
- 2 Class(es) with Grade 6 students
- 41 Grade 6 students
- 2% In English as a Second Language Program (ESL)
- 0% Exempted in all three subjects
- 17% Receiving Special Education Support
- 51% Boys                      49% Girls                      0% Gender not specified
- 7% Of the students said they speak only or mostly in a language other than English at home
- 7% Of the students said they speak as often in English as in another language at home

### Overall Achievement (Grade 3) Percent at Levels 3 and 4

	<u>Reading</u>	<u>Writing</u>	<u>Mathematics</u>
Number of Students	23	30	28
Method 1	53%	70%	65%
Method 2	53%	70%	65%

### Overall Achievement (Grade 6) Percent at Levels 3 and 4

	<u>Reading</u>	<u>Writing</u>	<u>Mathematics</u>
Number of Students	24	28	32
Method 1	59%	68%	78%
Method 2	59%	68%	78%

## Explanation of Terms and Categories

- Receiving Special Education Support:** This designation is for students whose Student Information Form (SIF) indicated that they were formally identified by an Identification, Placement and Review Committee (IPRC), as well as those students who though not formally identified, received special education support as noted on their Individual Education Plan (IEP).
- Exempt:** This designation is for students who were formally exempted from participation in one or more component of the assessment.
- No data:** This refers to non-exempt students from whom EQAO did not receive completed assessment booklets.
- NEIS:** (Not Enough Information to Score) This designation is for student work that is deemed to be insufficient to be assigned a level of achievement in a given category or strand within a subject, on the multiple-choice component or for overall achievement. This is the case if large sections of work are missing due to absence or other reasons.
- NE1:** (Not Enough Evidence for Level 1) This is the reporting designation for students who have provided enough information to score but have not demonstrated enough evidence of knowledge and understanding to be assigned Level 1.
- Levels 1-4:** EQAO's four-level marking scale is aligned with the four-level scale used on the Ontario Student Report Card, and sets Level 3 as the provincial standard.

## Explanation of Methods

- Method 1:** All data are reported. Method 1 expresses the number of students achieving at each level, as a percentage of all students in the grade, including students who were exempted and those whose work on the assessment did not produce enough information to score. EQAO uses Method 1 for reporting because publicly funded schools are accountable for the achievement and progress of all students. Schools and boards are required to use this method to ensure consistency of reporting across the province.
- Method 2:** An alternative way of presenting the data. Method 2 expresses the distribution of student results as a percentage of those students who actually took part in the assessment and produced work that could be scored. Students who were exempt, or for whom there is no performance data, are excluded. Method 2 highlights the results achieved by students who have scorable work.

## Notes

- Gender differences may not be precise, since gender was not specified on some Student Information Forms (SIF).
- Percentages may not sum to 100 due to rounding.
- In reading and writing, the overall level of achievement is calculated using students' scores in the categories and in the multiple-choice component. In mathematics, the overall level of achievement is calculated using students' scores in categories and strands and in the multiple-choice component.
- Overall scores are adjusted for year-to-year differences in assessments.
