

School Report

Grade 9 Assessment of Mathematics, 2009–2010

School: Notre Dame Catholic SS (738115)

Board: Toronto Catholic District School Board (67059)

I am pleased to provide you with this report on the Grade 9 Assessment of Mathematics for 2009–2010. Included are student results for the current year and previous years, which allow school communities to track progress over time. This report also provides demographic and attitudinal information about the student populations that were assessed, in order to help put these results in context.

EQAO’s assessments measure the achievement of all students in Ontario’s publicly funded schools at important stages in their education. One of the assessments’ key strengths is the fact that they assess every student against the learning expectations outlined in *The Ontario Curriculum* and report on achievement in relation to the provincial standard. After an exhaustive review of the provincial testing program in 2009, the Auditor General of Ontario confirmed that EQAO assessments reflect curriculum expectations fairly and accurately, are consistent in difficulty from one year to the next and are administered and marked so as to ensure that their results are valid, consistent and reliable indicators of student achievement. The Auditor General’s conclusions highlight how EQAO test results help teachers and administrators to identify large-scale challenges and focus their attention where it’s needed most.

Since the inception of the provincial testing program in 1996, EQAO data have helped inform teaching practices, and they continue to serve as a catalyst for improving student achievement all across Ontario. This report is intended to help you foster constructive conversations about student achievement and assist you in the planning of improvement strategies.

Of course, it should be remembered that EQAO’s assessment results are just one piece of information about student achievement. That is why they should be considered along with other school-based information. Regular assessments conducted in the classroom remain the fundamental method of assessing and supporting students throughout their education.

I trust that this report will help parents, educators and all who are committed to a strong public education system to work together so that all students realize their full potential.

Sincerely,

Marguerite Jackson
Chief Executive Officer
Education Quality and Accountability Office

TIPS

The applied and academic mathematics courses are different and should be considered separately.

Note: Students in locally developed courses do not participate in these assessments.

Each school or board is unique. To appreciate the distinctive character of a school or board, look at the contextual information to understand the features and characteristics of the community it serves.

This assessment captures the performance of students at one point in time each year. Consider the results along with other information about students' achievement in mathematics.

Exercise caution when interpreting results for small schools or boards. Results may vary considerably from year to year, and differences may look exaggerated. For example, in a school of 30 students, a difference of 10% represents only three students.

Trends may be difficult to identify or to interpret. This is especially true when groups are small or in schools where there is a high turnover in the student population.

EQAO values students' privacy. Results are not reported publicly for schools where fewer than 15 students participated, because it might be possible to identify individual students.

ABOUT THIS SCHOOL OR BOARD REPORT

This report shows how well students have met curriculum expectations for either the applied or academic mathematics program to the end of Grade 9. Students complete two booklets that allow them to show what they know in mathematics. The assessment is based on *The Ontario Curriculum: Mathematics, Grades 9 and 10*.

This report includes

- ◆ results for this year;
- ◆ a comparison of results over the past four years to aid in monitoring improvement and
- ◆ information about the characteristics of the students who participated.

Specifically, you will find

- ◆ summary graphs showing the percentage of students achieving the provincial standard in either applied or academic mathematics;
- ◆ detailed tables and graphs showing results for all levels of achievement, participation information and results for gender
- ◆ student questionnaire results and
- ◆ an explanation of all terms used in this report.

HOW TO USE THIS REPORT

- ◆ Examine the contextual information to understand the similarities and differences between this school, the board and the province; the board and the province. Consider the challenges that any differences might present.
- ◆ Examine the results for applied and academic mathematics.
 - Are these results consistent with what you would expect?
 - How do the school results compare to the board and province; the board results compare to the province?
 - How do these results compare over time?
 - What influence might students' attitudes have on student performance (refer to the questionnaire results)?
- ◆ Speak to the school or board staff about the goals for school improvement related to mathematics.

The Education Quality and Accountability Office is an independent agency that gathers information about student achievement through province-wide assessments. Each year, all Grade 9 students in applied and academic mathematics take part in this assessment across Ontario. Individual results are reported to students and to parents and guardians. School, board and provincial results are released publicly.

Speak only or mostly a language other than English at home		8%	6%	11%	10%
Speak another language as often as English at home	Information not available	18%	9%	19%	16%
Attended three or more elementary schools from kindergarten to Grade 8		19%	34%	27%	24%

* See the Explanation of Terms.

† Contextual data pertaining to "gender" and "student status" are provided by schools and/or boards through the Student Data Collection process. Some data may be missing because they were not provided by the school or the board.

++ Beginning in 2006–2007, exemptions have not been permitted.

†† Contextual data pertaining to "school background" and "language" are gathered from the Student Questionnaire completed by students. Some data may be missing because they were not provided by the students.

n/a Information not available.

Results over Time, 2006–2007 to 2009–2010

Grade 9 Assessment of Mathematics, 2009–2010, Applied Course

* Percentages may not add to 100, due to a lack of or ambiguous responses. Where there is no number in a bar, the percentage of responses is smaller than four.

Grade 9 Assessment of Mathematics, 2009–2010, Applied Course

STUDENT QUESTIONNAIRE RESULTS FOR THIS SCHOOL (# = 46)		
Questionnaire Item	Percentage of Students*	
3. Students have the following <i>at home</i> to use for mathematics school work:		Number of Students Who Answered "Yes"
a computer		23
a scientific calculator		45
a graphing calculator		4
<p style="text-align: center;"> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No </p>		
4. Amount of time students <i>usually</i> spend on mathematics homework (in or out of school) on any given day:		Number of Students
more than 45 minutes		9
between 31 and 45 minutes		19
30 minutes or less		15
mathematics homework not usually assigned		3
5. How often students complete all of their mathematics homework:		Number of Students
never or seldom		4
sometimes		15
often or always		27
6. How often students have been absent from their Grade 9 mathematics class this year:		Number of Students
never		4
one to four times		23
five to nine times		10
10 or more times		9

* Percentages may not add to 100, due to a lack of or ambiguous responses. Where there is no number in a bar, the percentage of responses is smaller than four.

Grade 9 Assessment of Mathematics, 2009–2010, Applied Course

STUDENT QUESTIONNAIRE RESULTS FOR THIS SCHOOL (# = 46)		
Questionnaire Item	Percentage of Students*	
7. How often students have been late for their Grade 9 mathematics class this year:		Number of Students
never	41	19
one to four times	35	16
five to nine times	17	8
10 or more times	7	3
8. Language(s) students speak at home:		Number of Students
only or mostly English	61	28
another language (or other languages) as often as English	17	8
only or mostly another language (or other languages)	22	10
9. Number of elementary schools (kindergarten to Grade 8) attended:		Number of Students
one or two schools	63	29
three schools	22	10
four schools	11	5
five schools or more	4	2

* Percentages may not add to 100, due to a lack of or ambiguous responses.

Grade 9 Assessment of Mathematics, 2009–2010, Applied Course

STUDENT QUESTIONNAIRE RESULTS FOR THIS SCHOOL (# = 46)		
Questionnaire Item	Percentage of Students*	
10. Teacher will count some or all parts of the Grade 9 Assessment of Mathematics as part of students' class mark:		Number of Students
yes	67	31
no	0	0
don't know	33	15
11. a) Students were told how much the assessment will count as part of their class mark:†		Number of Students
yes	100	31
no	0	0
11. b) If yes, it will count for:†		Number of Students
1–5%	71	22
6–10%	0	0
11–15%	6	2
16–20%	6	2
21–25%	0	0
26–30%	0	0
other	3	1
don't know	13	4
12. Counting the Grade 9 Assessment of Mathematics as part of class mark motivates student to take the assessment more seriously:†		Number of Students
yes	52	16
no	13	4
undecided	32	10

* Percentages may not add to 100, due to a lack of or ambiguous responses.

† Numbers and percentages for Questions 11. a) and 12 are based on the number of students who answered 'yes' to Question 10. Note: Numbers and percentages for Question 11. b) are further based on the number of students who answered 'yes' to Question 11. a).

* Includes only students for whom gender data were available.

† Percentages may not add to 100, due to a lack of or ambiguous responses.

‡ Percentages are based on the number of students who indicated that their teacher will count some or all parts of the assessment as part of their class mark.

§ Percentages of students are based on the number of students who indicated that they were told how much the assessment will count as part of their class mark.

Grade 9 Assessment of Mathematics, 2009–2010

EXPLANATION OF TERMS

All Students	Results are reported for all students in the course.
Participating Students	Results are reported only for those students who took part in the assessment (excludes the "no data" category).
Provincial Standard	The Ministry of Education, in <i>The Ontario Curriculum, Grades 9 and 10: Mathematics</i> , has set Level 3 as the provincial standard.
Level 4 (80–100%)	The student has demonstrated a very high to outstanding level of achievement. Achievement is <i>above</i> the provincial standard.
Level 3 (70–79%)	The student has demonstrated a high level of achievement. Achievement is <i>at</i> the provincial standard.
Level 2 (60–69%)	The student has demonstrated some of the required knowledge and skills. Achievement is <i>below, but approaching</i> , the provincial standard.
Level 1 (50–59%)	The student has demonstrated a passable level of achievement. Achievement is <i>below</i> the provincial standard.
Below Level 1/ Below L1	The student has not demonstrated sufficient achievement of curriculum expectations (below 50%).
No Data	Students who did not complete any part of the assessment due to absence or for medical or other reasons.
Exempt	Beginning in 2006–2007, exemptions have not been permitted.
English Language Learners	Students who have been identified by the school in accordance with <i>English Language Learners: ESL and ELD Programs and Services: Policies and Procedures for Ontario Elementary and Secondary Schools, Kindergarten to Grade 12</i> (2007). Prior to 2007, English language learners were called English as a second language (ESL)/English literacy development (ELD) learners.
Students Receiving One or More Special Provisions	Students identified by the school as receiving special provisions. Detailed information about special provisions is available in EQAO's <i>Guide for Accommodations and Special Provisions</i> .
Students with Special Education Needs (excluding gifted)	Students who have been formally identified by an Identification, Placement and Review Committee, as well as students who have an Individual Education Plan. Students identified as gifted are not included.
Students Receiving One or More Accommodations	Students identified by the school as receiving accommodations. Detailed information about accommodations is available in EQAO's <i>Guide for Accommodations and Special Provisions</i> .
N/R	"Not reported" indicates that the number of students participating (fewer than 15 in a group) or responding to the Student Questionnaire is so small (fewer than six in a group) that identification of individual student results might be possible; therefore, results are not reported.
N/D	"No data available" is used to indicate that there were no students in the course for the years specified.
W	Results for some or all students are being withheld by EQAO. For further information, please contact the school principal.
